

Dartmouth General Hospital

A trusted community anchor, Dartmouth General Hospital is a 24-hour emergency, inpatient medical, surgical and critical care facility providing services to approximately 120,000 people in Dartmouth and surrounding areas. Dartmouth General Hospital is undergoing a transformational change in how it delivers care as an important institution in Nova Scotia Health's vision of the future. A \$150 million investment is being made in facility renovations, expansion, equipment and technology to further expand breadth and access of service.
