

A partnership of Nova Scotia Health
& IWK Health

prideHealth works to improve access to safe, coordinated, comprehensive primary health care for people who are part of the 2SLGBTQIA+ community.

prideHealth provides the following services for the 2SLGBTQIA+ community:

- Referrals to affirming mental health and addictions providers
- Information and referrals for gender-affirming care
- Information about sexually transmitted and blood-borne infection (STBBI) testing and treatment services
- Information about community resources such as peer support, advocacy, and social groups

prideHealth provides the following education and resources to Nova Scotia Health and IWK staff:

- Workshops and learning opportunities on 2SLGBTQIA+ health equity and structural competence
- Information and referrals for gender-affirming care
- Mainpro+® accredited courses on pre-exposure prophylaxis (PrEP), gender-affirming hormones, gender-affirming surgeries and aftercare, and STBBI testing and treatment
 - › <https://cbrc.teachable.com>
- Communities of practice on PrEP, gender-affirming hormones, and trans mental health
- The Pride Network for staff who are part of the 2SLGBTQIA+ community
