

Statement of Compensation for the Public Sector Compensation
Disclosure Act

Nova Scotia Health Authority

Year Ended March 31, 2024

INDEPENDENT PRACTITIONER'S REASONABLE ASSURANCE REPORT ON COMPLIANCE WITH THE PUBLIC SECTOR COMPENSATION DISCLOSURE ACT

To the Administrator of the Nova Scotia Health Authority:

I have undertaken a reasonable assurance engagement of the Nova Scotia Health Authority's (NS Health) compliance with the *Public Sector Compensation Disclosure Act* (the Act) for the year ended March 31, 2024. The Act requires disclosure to the public of the amount of compensation NS Health annually pays or provides, directly or indirectly, to any board member, officer, employee, contractor and consultant if the amount of compensation is one hundred thousand dollars or more (the specified requirements).

Management's Responsibility

Management is responsible for NS Health's compliance with the specified requirements of the Act. Management is also responsible for such internal control as management determines necessary to enable NS Health's compliance with the specified requirements.

Practitioner's Responsibility

My responsibility is to express a reasonable assurance opinion on NS Health's compliance based on the evidence I have obtained.

I conducted my reasonable assurance engagement in accordance with Canadian Standard on Assurance Engagements 3531, *Direct Engagements to Report on Compliance*. This standard requires that I plan and perform this engagement to obtain reasonable assurance about whether NS Health complied with the specified requirements, in all significant respects.

Reasonable assurance is a high level of assurance but is not a guarantee that an engagement conducted in accordance with this standard will always detect a significant instance of non-compliance with specified requirements when it exists. Instances of non-compliance can arise from fraud or error and are considered significant if, individually or in the aggregate, they could reasonably be expected to influence the decisions of users of my report. A reasonable assurance compliance reporting engagement involves performing procedures to obtain evidence about the entity's compliance with the specified requirements. The nature, timing and extent of procedures selected depends on my professional judgment, including an assessment of the risks of significant non-compliance, whether due to fraud or error. Procedures include examining, on a test basis, evidence supporting the assessment, and evaluating overall compliance with these requirements.

I believe the evidence I obtained is sufficient and appropriate to provide a basis for my opinion.

Independence and Quality Control

My office applies the Canadian Standard on Quality Management 1 and, accordingly, maintains a comprehensive system of quality control, including documented policies and procedures regarding compliance with ethical requirements, professional standards, and applicable legal and regulatory requirements.

In conducting my work, I have complied with the independence and other ethical requirements of the Chartered Professional Accountants of Nova Scotia CPA Code of Professional Conduct and the Province of Nova Scotia's Code of Conduct for Public Servants.

Opinion

In my opinion, NS Health complied with the specified requirements established in the *Public Sector Compensation Disclosure Act* for the year ended March 31, 2024, in all significant respects.

I do not provide a legal opinion on NS Health's compliance with the specified requirements.
